

*TAPP project description.* A discussion of the assistance requested that includes the elements listed in Section 203.10 of this part. The project description should contain sufficient detail to enable the Department of Defense to determine the nature and eligibility of the project, identify potential providers and estimate costs, and prepare a statement of work to begin the procurement process.

*Technical assistance.* Those activities specified in §203.10 of this part that will contribute to the public's ability to provide input to the decision-making process by improving the public's understanding of overall conditions and activities. Technical assistance may include interpreting technical documents; assessing technologies; participating in relative risk evaluations; understanding health implications; and, training.

Technical assistance does not include those activities prohibited under Section 203.11 of this part, such as litigation or underwriting legal actions; political activity; generation of new primary data such as well drilling and testing, including split sampling; reopening final DoD decisions or conducting disputes with the Department of Defense; or epidemiological or health studies, such as blood or urine testing.

*Technical Review Committee (TRC).* A group comprised of the Department of Defense, EPA, State, and local authorities and a public representative of the community formed to meet the requirements of 10 U.S.C. 2705(c), the Department of Defense Environmental Restoration Program. Primarily functioning to review installation restoration documents, these committees are being expanded and modified at installations where interest or need necessitates the creation of a RAB.

#### § 203.4 Major components of the TAPP process.

(a) The Department of Defense will issue purchase orders to technical assistance, facilitation, training, and other public participation assistance providers subject to the purchase limit per order as resources continue to be available. If multiple purchase orders are needed to assist community mem-

bers of a particular RAB or TRC, the combined sum of these purchase orders cannot exceed \$100,000 or, during any one year, the lesser of \$25,000 or 1 percent of the installation's total projected environmental restoration cost-to-complete. Note that these limitations refer to the maximum allowable technical assistance funding per RAB/TRC. Resources available within a given year may vary. These limitations apply unless a waiver is granted by the DoD Component Secretary or equivalent for the installation in question. The \$100,000 total and \$25,000 annual limitations may be waived, as appropriate, to reflect the complexity of response action, the nature and extent of contamination at the installation, the level of activity at the installation, projected total needs as identified by the TAPP recipient, the size and diversity of the affected population, and the ability of the TAPP recipient to identify and raise funds from other sources.

(b) Community members of the RAB/TRC will provide a description of the services requested (TAPP Project Description) and, if desired, the names of one or more proposed technical assistance providers to the DoD RAB Co-Chair, who will ensure the application is submitted to the installation commander or other designated authority and to the appropriate DoD contracting office. Technical assistance providers proposed by the community members of a RAB or TRC at each DoD installation that meets the minimum set of organizational qualifications guidelines provided by the Department of Defense in §203.12 of this part will be added to the governments list of bidders for the proposed procurement.

#### § 203.5 TAPP process.

This section provides an overview of the TAPP process. Specific details referred to in this section can be found in subsequent sections of this part.

(a) *TAPP funding.* Funding for this TAPP program will come from the Environmental Restoration Accounts established for Army, Navy, and Air Force for operational installations. The funding for Defense Agencies' operating installations will be from the Defense-Wide Environmental Restoration Account. Funding will be from the
